

We would like to invite you to

4th International
Pedagogical and Linguistic
Conference (ERLIV)

Educational Role of Language
- From theory to practice, from practice to theory

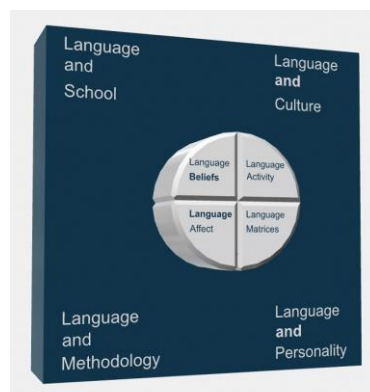

17-18 June 2019, Craiova (Romania)

Organiser: University of Craiova, ERL Partners (see below)

Conference venue: University of Craiova

AIM. Our intention is to consider how theoretical knowledge concerning the importance of language is applied in practice and conversely – in what ways educational practice informs theory. Their mutual reinforcement – due to its global appeal – we hope to address in a widely international circle.

SCOPE. The ERL IV conference will focus on how language relates to schooling, culture, methodology and personality. These four relationships will be discussed in terms of how they are theoretically determined and how they are manifested in practice throughout the globe.

OUR DEVELOPMENTS. The conference is also meant to provide grounds for expanding the ERL Network and welcoming new members of the recently established *International Association for the Educational Role of Language*, about which you can read more at <http://educationalroleoflanguage.org>.

YOUR CONTRIBUTION. Do join us if your interests combine language and education in its widest sense. We seek interdisciplinary contributions which help us better understand how language determines our functioning in the world and how it works in theoretical and practical terms.

Partners from the Educational Role of Language Network co-organising the event:

(England) University of West London

(Lithuania) Education Academy of Vytautas Magnus University

(Poland) University of Gdańsk
